

Oak Grove Robotics Club

Parents,

9/17/14

This week the work began in earnest. Students had to turn in progress reports signed by their teachers and were supposed to come in prepared to demonstrate the Core Values that they should have at least partially memorized. To emphasize this they were given the same type of challenge that they will face in front of the judges. The coaches scored the team using the same rubric that will be used and the results were discussed.

Many of the members had no idea what the Core Values were so we are once again asking that you encourage your child to get on the FLL website, view and memorize the Core Values <http://www.firstlegoleague.org/mission/corevalues> , and review the project criteria.

http://www.firstlegoleague.org/sites/default/files/Challenge/FLL_WORLD_CLASS/FLL-WORLD-CLASS-Challenge-FINAL-v2.pdf. By next week all teams should have chosen their project topic and begun the research and writing. Since we only meet once a week and qualifying rounds begin in October, it's very important that they do some of this work outside of club meeting times.

We are again asking that those with last names beginning with A-G bring snacks and drinks. As I'm sure they told you when they walked in the door...they were "Starving" this week since nobody supplied any.

Student progress report forms can be printed from this link and will continue to be required every Wednesday

<http://www.oakgroverobotics.org/blog/weeklyprogressreport/weeklyprogressreport.pdf> .

We are getting closer and closer to being able to work with the Lego portion of the curriculum and we wouldn't want anyone missing out because they didn't do this!

We look forward to seeing the kids again next week!

The Coaches.
